

# ACI EUROPE AIRPORT TRAFFIC REPORT

SOURCE: ACI WORLD & ACI EUROPE

June, Q2 & H1 2019

# First half of 2019 yields uncertain outlook for air transport in Europe

**Brussels, 8 August 2019:** European airport trade body, ACI EUROPE, today released its air traffic report for June, Q2 & **H1**, measuring all types of civil aviation passenger flights: full service, low cost and charter.

The report reveals that **passenger traffic** at Europe's airports grew by **+4.3%** during the first half of this year – a significantly slower rate than last year (+6.7%). Meanwhile, **freight traffic** dropped by **-3.5%** over the same period (+3.3% in H1 2018). Overall, **aircraft movements** increased by **+2.4%** (+3.5% in H1 2018).

**Olivier Jankovec, Director General of ACI EUROPE** commented: *"Passenger traffic growth has certainly slowed this year compared to previous ones, but it still remains quite resilient – especially given the range of economic, geopolitical and other industry-specific challenges we are confronted with. Slowing economic growth in Europe, trade wars and Brexit are not helping – and neither are rising fuel bills, ATM disruptions, airline consolidation and aircraft grounding & delivery delays. Aircraft movements have been continuously slowing down - from +6.2% last December to just +1.6% in June. This shows just how risk averse airlines have become in terms of capacity deployment & network development."*

He added *"The slump in freight traffic is where it really bites at the moment. And it is not getting any better, with June registering a drop of -7.1% - the worst monthly performance in more than 7 years. This does not bode well for the months ahead, especially as passenger traffic usually does not remain totally isolated from trends in freight traffic."*

## **EU AIRPORTS PASSENGER TRAFFIC IN THE LEAD AT +4.7%**

The EU market maintained steady growth during H1, with passenger traffic performance holding steady between 4.5% to 5% on a month-by-month basis over the period.

Airports in Austria (+20%), Croatia (+10.5%) and Estonia (+10.5%) posted double-digit growth in H1, with those on Luxembourg, Portugal, Spain, Latvia, Poland, Hungary and Romania also growing well above the EU average. Conversely, Bulgaria (-2.5%) and Sweden (-4.1%) reported passenger traffic declining while growth was flat in neighbouring Denmark (+0.3%). Belgium, the Netherlands, Slovenia and the UK significantly underperformed the EU average – with the latter further slowing down in June (+0.9%).

Accordingly, amongst larger/capital EU airports, the best results were achieved by Berlin TXL (+25.2%), Vienna (+23.9%), Tallinn (+10.5%), Dusseldorf (+10.4%), Milan Malpensa (+10.2%), London Luton (+9.6%), Riga (+9.5%) Luxembourg (+9.0%), Bucharest Otopeni (+8.2%), London City (+7.8%), Athens (+7.7%), Budapest (+7.5%) and Warsaw (+7.4%).

## **NON-EU AIRPORTS PASSENGER TRAFFIC AT +2.9%**

Airports in the non-EU market grew at a slower pace in H1, mainly due to traffic losses in Turkey (-1.4% - as a result of the recession affecting the country) and Iceland (-20.3% - following the bankruptcy of WOW in the final days of March) as well as nearly flat growth in Norway (+0.9%).

However, passenger traffic in Ukraine, Georgia, Albania and Northern Macedonia remained extremely dynamic, achieving double-digit growth. It is also worth noting that passenger traffic in Turkey improved in Q2 and ended up posting an impressive +7.1% growth in June - signaling a recovery.

The best performances amongst larger/capital non-EU airports came from Kyiv-Boryspil (+20.1%), Moscow-Sheremetevo (+14.1%), Moscow-Vnukovo (+13.8%), Antalya (+13.4%), Pristina (+12.5%), Tbilisi (+11.7%), Tirana (+11.1%), and Saint Petersburg (+10.3%).

## MAJORS & SMALLER REGIONALS WEAKER

Passenger traffic at **the Majors** (top 5 European airports) grew by just **+2.3%** during H1. Paris CDG (+7.2%), led the league, followed by Frankfurt (+3.0%), while gains were limited at capacity constrained London-Heathrow (+1.7%) and Amsterdam-Schiphol (+1.4%). Istanbul-IST/ISL<sup>1</sup> saw passenger traffic receding (-2%).

Many **larger regional airports** achieved double-digit passenger traffic growth in H1, including Seville (+21.4%), Krakow (+19.3%), Nantes (+18.3%), Bari (+13%), Valencia (+12.3%), Bordeaux (+12%), Naples (+10.8%), Bologna (+10.3%), Sochi (+10.2%) and Porto (+10%).

However, **smaller regional airports** significantly underperformed, with their passenger traffic barely increasing at **+1%**. Yet, some managed to post impressive growth, such as Ohrid (+62.9%), Zadar (+37.6%), Batumi (+30%), Newquay (+29.4%), Kharkiv (+25.5%), Memmingerberg (+25.4%), Sibiu (+25%), Dubrovnik (+17.4%), Iasi (+16.8%), Brno (+17.7%) and Ostend (+15.4%), Kaunas (+15.1%) and Brest (+13.9%).

## FREIGHT & AIRCRAFT MOVEMENTS

Both the EU and Non-EU markets saw a decline in **freight traffic** during H1 with the **EU market** (-3.7%) bearing the brunt - **non-EU** airports (-1.9%).

Amongst the **top 10 European airports for freight traffic**, only 2 posted positive results in H1: Liège (+6.5%) and Istanbul IST (+0.4%).

**Aircraft movements** in H1 increased by **+2.9%** at EU airports and by 1% at non-EU ones.

## H1 TOP 5s

During **H1**, airports welcoming more than 25 million passengers per year (Group 1), airports welcoming between 10 and 25 million passengers (Group 2), airports welcoming between 5 and 10 million passengers (Group 3) and airports welcoming less than 5 million passengers per year (Group 4) reported an average adjustment **+3.9%**, **+6.1%**, **+4.2%** and **+1.9%**.

The airports that reported the highest increases in passenger traffic are as follows:

**GROUP 1:** Vienna (+23.9%), Moscow SVO (+14.1%), Antalya AYT (+13.4%), Paris CDG (+7.2%) and Madrid & Lisbon (+6.6%)

**GROUP 2:** Berlin TXL (+25.2%), Kyiv-Boryspil KBP (+20.1%), Moscow VKO (+13.8%), Dusseldorf (+10.4%) and St Petersburg (+10.3%)

**GROUP 3:** Seville (+21.4%), Krakow (+19.3%), Nantes (+18.3%) Bari (+13%) and Valencia (+12.3%)

**GROUP 4:** Ohrid (+62.9%), Zadar (+37.6%), Batumi (+30%), Newquay (+29.4%) and Bucharest (+28.6%)

The '**ACI EUROPE Airport Traffic Report – June, Q2 & H1 2019**' includes 242 airports in total representing more than 88% of European air passenger traffic.

## **DEFINITIONS**

### **Passengers**

Revenue and non-revenue passengers arriving or departing via commercial aircraft and helicopters on a scheduled or non-scheduled flight.

#### **Domestic**

Traffic (passengers and freight) performed between airports located within the same country or territory.

#### **International**

Traffic (passengers and freight) performed between the designated airport and an airport in another country or territory.

### **Freight**

Freight is any property carried on an aircraft other than mail, stores and baggage.

### **Movements / Aircraft movement**

A movement is a landing or take-off of an aircraft or helicopter at an airport operating a scheduled or non-scheduled service.

#### **Cargo only**

Movements by aircraft and helicopters operated for commercial transport operations involving freight and/or mail, but not passengers (excluding air taxi and business flights).

#### **PAX + Freight combined**

Movements by aircraft and helicopters operated for commercial transport operations involving passengers, freight and/or mail (excluding air taxi and business flights).

### **Geographical coverage**

#### **Europe**

Refers to all the countries and territories in the continent of Europe.

#### **EU**

Refers to airports located in the 28 Member States of the European Union.

#### **Non-EU**

Refers to European countries that are not members of the European Union. These currently include Albania, Belarus, Bosnia and Herzegovina, Former Yugoslav Republic of Macedonia, Georgia, Iceland, Israel, Montenegro, Norway, Russian Federation, Serbia, Switzerland, Turkey and Ukraine.

Airports Council International has been tracking airport traffic data for over 25 years. As part of that, here in Europe ACI EUROPE has published a dedicated airport traffic report every month for over 10 years. The data available comprises the most comprehensive reporting of passenger traffic figures available (including the network, low cost, charter and other airlines) as well as freight figures and aircraft movements. The report also provides insights into the average traffic performance in the various countries in continental Europe and a breakdown of the average growth in our 4 traffic categories for airports).

ACI EUROPE is the European region of Airports Council International (ACI), the only worldwide professional association of airport operators. ACI EUROPE represents close to **500 airports** in 45 European countries. In 2015, our member airports handled over 90% of commercial air traffic in Europe, welcoming more than **1.9 billion passengers, 18.9 million tonnes of freight** and **22.8 million aircraft movements**. These airports contribute to the employment of **12.3 million people**, generating **€675 billion** each year (**4.1%**) of GDP in Europe.

**EVERY FLIGHT BEGINS AT THE AIRPORT.**
